

ADDENDUM BID SC-1512

August 12, 2015

This is a follow-up response to the concerns presented at the Pre-Bid Meeting held at the Road Department in Greenwood, AR on August 11, 2015:

1. "Specifications: Dump Bed" (Section V, page 7) should include a minimum of 10-gauge standard.
2. The distance of the bed from the cab should be at least 6-inches.
3. The Pusher Axle (3rd set of axles) must be factory option or equivalent.
4. The 72-hour repair period, stated in Section V number 22 (page 7), shall be changed to five (5) business days, with the understanding that a business day is Monday through Friday. Any nationally recognized holiday that occurs on a business day will be added to the repair period.
